

AI Accelerator

Are you looking to leverage the power of AI but don't know where to start? Our AI Accelerator is designed to help you identify key opportunities to empower your business with speed and simplicity.

Harness the Power of Artificial Intelligence (AI)

Our fixed-price AI package, delivered by our certified and award-winning team of experts and architects, addresses your unique and industry-specific needs. Over four weeks, we will work with you to assess and build a business case for AI integration.

Our Approach

We partner with your team by immersing ourselves in your tenant working towards the common goal of using human-centric AI to produce efficiencies in operations. The end result is a roadmap of high-value AI use cases and their approximate scope for implementation.

Examples of AI Integration:

- **Expedite Business Processes:** Validate expense receipts or provide additional context to approvers.
- **Contract Assessment:** Summarize contracts in bulk to find key provisions and report on them.
- **Recruiting Acceleration:** Compare candidate resumes to desired skills and suggest better job postings to attract qualified candidates.
- **Content Refinement:** Suggest refinements to feedback, announcements, and job descriptions.

Our customer-focused team is passionate about seamlessly connecting your business goals and objectives with AI solutions. Contact us at success@intecrowd.com to learn more.

Solution Includes:

- ✓ Guided brainstorming and categorization of AI use cases applicable to your business
- ✓ Roadmap with basic ROI analysis for the primary use cases that
 - Increase productivity
 - Boost employee engagement
 - Add value for businesses with unique needs
- ✓ Stakeholder presentation of findings
